Company Information

SFI HVAC Professionals is an A-rated and MWBE certified mechanical contracting company that specializes in central A/C and cooling systems as well as heating and furnace systems. Its technicians are 100% self-performing providing the highest quality service in preventative maintenance, repairs, and installation to local and federal government as well as commercial and institutional businesses across the Tri-State Region. With extensive experience in providing HVAC diagnostic and repair services, our staff keeps businesses' energy efficient and ensures that heating, cooling, and ventilation systems are all running smoothly. SFI has demonstrated exceptional customer and technical service qualifications as it continues to satisfy agreements with government contractors and commercial clients.
