

Company Overview

KDE Technology LLP is a fully managed website design and hosting service small business based out of West Virginia. We are a small company with big capabilities that include graphic design, digital photo restoration, and website security. Our Mission is to foster a close relationship with our clients before, during, and after their goals have been met and offer 24/7 support via phone and/or email. We are your one stop shop for fully managed websites and custom branding for your business. Contact us to learn more about our federal contracting abilities.
