Company Overview

VX Marksmanship LLC is a certified service disabled veteran owned small business providing its clients with combat-style firearm training (pistol, tactical carbine, sniper and shotgun). Based in Decatur, Texas - north of the Dallas-DFW metroplex - we train military personnel, military contractors and law enforcement (including SWAT Teams). By developing our trainees' tactical mindset and stacking fundamentals, combined with challenging scenario and stress drills, we see immediate and significant improvement in their mental, physical and tactical abilities. This is not a subjective opinion, but one proven by metric-based results with respect to the speed and accuracy of our students' performance. Our program ensures combat readiness. We also consult with military and law enforcement authorities to help them improve their in-house training programs.
