Company Overview

Concrete Service Corporation (CSC) is a small business that has specialized in restoring and rehabilitating concrete since 1984. CSC has mastered a wide range of restoration methods unique to the marketplace and utilizes expertise to provide solutions across a variety of clients. Our mission is to be the most knowledgeable and skilled in the industry. We do this through attending trade shows and seminars offered by international experts in equipment and materials, as well as, maintaining a technical library of material from trade periodicals, seminar manuals, and reference books. We are members of several organizations including The Association of General Contractors (AOGC), Associated Builders and Contractors (ABC) and The International Concrete Repair Institute (ICRI). We also utilize ICRI standards when performing our work. Concrete Services is prepared for any contract that comes our way.
