

## COMPANY OVERVIEW

With 25 years of experience, Hoku Wireless provides essential cellphone wholesale options to our clientele. We venture to satisfy all of our client's needs through providing key components within the telecommunications industry.

Including offerings like cellphone accessories or carrier options, we are also an authorized dealer of some major carriers. Verizon, AT&T, and T-Mobile are only a few of our growing partnerships. We set ourselves above competitors through providing contracts that have no minimum length and are able to be set up within a day. We pride ourselves in the profound assistance that we provide clients under pressure due to emergency situations. For example, when landlines go out due to power outages or earthquakes, we can deliver cell phones ready-to-go and on the same day. Here at Hoku, our clients come first 24/7, 100% of the time!

For additional information on our company and federal contracting abilities, please feel free to reach out today.
