

## Capability Statement

### Company Overview

OnPage, a woman-owned business, delivers an intelligent incident alert management system that is scalable and secure. OnPage enables federal agencies to quickly respond to critical incidents by accelerating delivery of critical alerts to the on-call team for faster remediation.

OnPage replaces old pagers with a secure, HIPAA-compliant mobile application that elevates critical notifications to the on-call person on their personal mobile device.

- Alert-until-read capability
- Override the mute switch on mobile device
- Escalation criteria
- Digital on-call scheduler
- Live-call routing to the On-Call staff
- Mass notification
- Real-time reporting
- Post-incident audit trail

OnPage's robust system drives team collaboration and reduces incident response time for industries including healthcare, IT support, managed services, manufacturing, IoT and more.

**CAGE CODE:**

4VSY7

**DUNS Number:**

159800200

### Core Competencies

IT service alerting (ITSA) and Security Operation notification

Digital on-call scheduler with escalation criteria
