## **COMPANY OVERVIEW**

Birch Manufacturing LLC is an advanced tech-driven manufacturing company that provides essential turning and milling services to our clientele. Our offerings can accelerate a company's turnaround costs and product development stages, resulting in creating advantageous products faster.

There is an array of benefits involving our turning and milling services. We complete jobs at a rapid rate, create custom parts for custom needs, work with a diverse range of materials, and more. From steel to titanium, we are dedicated to providing above-average quality workmanship with all of the materials that we use. Here at Birch Manufacturing, machining is our passion, improvement is our goal, and we ensure maximum customer satisfaction with top-notch results.
