Company Overview

American Telehealth Solutions LLC is a physician run telemedicine company that provides medical services via a secure videoconferencing system between patients and doctor. Allowing for lower medical costs and increasing access while maintaining quality care, we are a multi-specialty group who offers both primary care medicine as well as an array of specializations.

Ranging from rural health clinics to prisons, there are little limitations to how we serve our clients. We provide access to healthcare in areas that are typically underserved. We collaborate with quality providers, physicians, and technology companies to achieve top results. Our specialists allow consultations for patients or prisoners without them having to leave the facility through our secure video conferencing system. Here at American Telehealth, we continuously strive to improve quality medical care while utilizing innovative ideas.
