Company Overview

Since 1991, ER2 Image Group has brought client's brands to life through our full-service printing essentials. We have 28 years of experience, are family-owned, operated, and have obtained multiple certifications that enable us to provide an array of services.

Our assortment of printing specializations includes but is not limited to; banners, design, custom print, mural installation, signage, pop-up displays, and 3D braille printing. In addition to a diverse skill set, we perform our services using green materials such as paper-based fiberboards, UV curable technology, and a recycling program for our scrap plastics. Here at ER2, our team handles all of our client's printing needs under one roof which makes for an efficient, consistent, and smooth project process.

For additional information on our company and federal contracting abilities, please reach out today!
