Company Overview

Since 2010, EMT has provided high-quality solutions within the manufacturing and machinery operations industry. We have over 45 years of industry experience, a diverse industry background, and offer an array of services.

Our specializations include but are not limited to: retrofit automation, custom automated machines, manipulators, hydraulic lifting systems, and basic underhook tools. In addition to a vast skillset, we specialize in structural design, established a high industry reputation, are on-time, in-budget, and more. Here at EMT, our team of full-service professionals goes the extra mile for each and every one of our clients 100% of the time.

Please contact us today for additional information on our company and federal contracting abilities.

Differentiators

- In business since 2010
- 45+ years of collective industry experience
- Focus on fabrication of the strongest, industrial-grade parts and machinery out of the lightest designs possible
- In-shop and on-site quality solutions
- On-time and in-budget
- Strong in custom engineering design
- Specialize in mechanical design and structural fabrication
- Take projects from concept to production
- Full-service structural engineers on staff
- Established high reputation in community and industry

- Repeat and referral clients
- Excellent customer service

Core Competencies

Professional Engineering, Design, & Automation Services

- Turn-Key Design & Build
- Retrofit Automation
- Processing Equipment
- Material Handling Equipment
- Custom Automated Machines
- Assembly Line Workstations
- Manipulators
- Hydraulic Lifting Systems
- Automated Carriers
- Fabrications & Weldments
- Stacker Crane & Vacuum Tooling
- Automotive Production Equipment
- Basic Underhook Tools
- Hand Rails, Steps, & Mezzanines

Past Performance

Large Whiskey Industry Leaders - fabrication of multiple warehouses in the whiskey industry, including fabricating rails, platforms, and mezzanines - multiple \$250,000 projects

Automotive Industry Business - large under hook attachments for lifting engine blocks and cylinders and crack shafts, completed installation of large project, put new product line in regarding quality inspection tools and monorail systems - 90 day project - \$380,000 project

Large Beverage Industry Leader - custom design equipment for a dunk tank, from conception to installation, designed and fabricated production equipment and ran test trials - 4 months to complete - \$250,000 project
