Company Overview

Founded in 1967, Plast-O-Matic Valves, is a small Women owned business. Their ongoing mission is to continually advance the technology of flow and pressure control in thermoplastic and fluoropolymer piping systems. As the quality leader in the development of thermoplastic valves and controls for corrosive and ultra-pure liquids. Plast-O-Matic Valves manufacturers thermoplastic valves and other products that are used in water purification, pharmaceutical, ultra-purity, semiconductor, irrigation, agriculture potable and wastewater applications.

Core Competencies

- **Custom Engineered Valves**
- Ball Valves
- Back Pressure Valves
- Butterfly Valves
- Check Guards
- Control for Pumps
- Check Valves
- Pumps
- Pressure Regulators
- Shut Off Valves
- Diverter Valves
- Level Indicators
- Sight Glass
- Solenoid Valves
- Venting Valves
- Vacuum Breakers
- Ultra-High Purity Valves

Differentiators

- ISO-9001 Quality SAI GLOBAL Certification
- Class 100 Clean Room Clean and Double Bag
- ASMEB31.1 Bonding Certification
- Solenoid Valve CE Mark Compliance
- EU REACH Compliance
- 7 additional Certification of Compliance
- Holds 11 Patents in Thermoplastic Valves

NAICS Codes

332911 Industrial Valve Manufacturing

334519, 334514, 334513, 332912, 221310, 237110, 312112, 312140, 325211
