

Company Overview

Ruskat Medical Equipment Corp was founded in New York in 2015. As a company we have over 40 years combined experience within the medical sector. Our company was built on the founders belief that 'it is a right of every citizen of the world to have access to basic comprehensive health care as it is in the developed nations of the world'. Ruskat Medical provides our equipment globally, improving the medical care of those who would not normally have access to it.

Please contact us today for additional information on our company and federal contracting abilities.
