

# On Site Service LLC

## Capability Statement

### COMPANY OVERVIEW

Founded in 2022, On Site Service LLC is a dependable and client-centered provider of comprehensive machinery maintenance and repair solutions. We specialize in servicing a wide array of equipment, including agricultural machinery, construction equipment, warehouse tools, specialty machinery, and marine diesel systems.

Backed by over 15 years of industry experience, we leverage advanced diagnostic software to minimize equipment downtime, reduce repair costs, and ensure accurate repairs. Our commitment to excellence is reflected in our fast response times, transparent communication, and unmatched workmanship. With a proven track record spanning over three years in the agricultural, construction, and marine sectors, we are well-positioned to meet and exceed the unique needs of our customers.

For more information about our services or federal contracting capabilities, feel free to reach out at your convenience.
