Company Overview

Robo RITA Inc. is a veteran-led healthcare technology company specializing in government-ready telehealth solutions for defense, emergency response, veterans' services, and public health agencies, with a mission to expand healthcare access through reliable, mobile-first innovations. Their flagship product, Robo RITA (Remote Intelligent Telemedicine Assistant), is an AI-powered telehealth unit designed for rapid deployment in disaster zones, rural areas, military bases, correctional facilities, and schools, connecting users to a nationwide network of healthcare professionals without requiring on-site staff. Equipped with Starlink connectivity, HIPAA-compliant security, and optional integration with devices like BeamO for real-time vitals collection, Robo RITA uses Pertexa IQ software to automate clinical documentation and offers the Highway to Health platform for wellness coaching and community support.
