COMPANY OVERVIEW

Sep Enterprise Inc. is a nationwide food industry consulting firm that supports federal procurement and community food programs. We help producers reach markets by guiding distribution to farmers markets, grocery stores, and food assistance programs. Our team advises on farm to table and farm to school initiatives, and we optimize supply chains to improve access, sustainability, and efficiency. We also help clients navigate market entry and deliver community-based food solutions that align with government priorities for food security and economic development.

With more than 20 years of experience in customer service and specialty food service, Sep Enterprise has a proven record that includes strong Google ratings, the simultaneous operation of six food establishments, and key credentials such as two wine licenses and multiple food handling certifications. This depth of expertise makes us a dependable partner for federal agencies seeking high-quality consulting to advance agricultural innovation and community support.
