## COMPANY OVERVIEW

Harper Seven is a cybersecurity firm specializing in offensive security and Pentest-as-a-Service for government, healthcare, and fintech. With more than a decade of experience in red teaming, network security, and enterprise vulnerability assessments, the company delivers targeted engagements across web, API, cloud, and network testing, social engineering simulations, cloud security posture reviews, compliance gap assessments, and threat modeling.

Built for speed, precision, and accountability, Harper Seven pairs rapid SLAs with tailored, mission-aligned solutions. The team brings cleared professionals, deep expertise in NIST, CMMC, HIPAA, and GDPR, and modern practices like AI-driven detection, Zero Trust designs, and secure cloud architectures. Clients receive audit-ready documentation, measurable risk reduction, and executive-level involvement from scoping through remediation.
