Capability Statement

Devine Solutions Group is a multiple award-winning, full-service digital marketing and business development agency established in 2015. As an approved GSA Schedule Holder (Contract #47QRAA24D0052), we specialize in delivering end-to-end marketing solutions that help public sector agencies and contractors communicate effectively, enhance visibility, and achieve measurable results.

Our expertise spans brand messaging and development, website design, digital advertising, SEO, content strategy, and social media management, just to name a few—all executed with precision, transparency, and accountability.

Serving federal, state, local and municipal agencies as well as enterprise and SMB clients nationwide, our team acts as an extension of your department, not just a vendor. Every engagement is led by experienced professionals who understand compliance standards, procurement processes, and the importance of delivering on time and within scope.

Whether your objective is a rebrand, campaign launch, or modernization of your digital ecosystem, we simplify the process, ensure alignment with your mission, and deliver results that stand up to public accountability.
