Capability Statement

C2 Squared, LLC is a conservation and civil services firm with operations in Alabama, Texas, and North Dakota. The company delivers reclamation and restoration of construction sites, habitat establishment and management, erosion control, seeding and mulching, dozer and excavation, environmental controls, debris haul off, storm cleanup, forestry practices, firebreaks, and access road building and maintenance. Industries served include renewable energy, oil and gas, natural resource and conservation agencies, the Department of Defense, municipalities, forestry departments, emergency response organizations, and nonprofit conservation groups.

C2 Squared is led by professionals with over 35 years of construction experience. The team is grounded in integrity, craftsmanship, safety, and quality, and values employees as much as clients. Leadership brings proven project delivery from conception to completion, including complex programs and large scale restoration, with the resources to staff significant projects across its regions.
