At Scotts Hauling LLC, we are a growing hotshot general freight carrier committed to steady expansion. We work primarily through brokers and support clients who need dependable transportation for a wide range of flatbed compatible freight, including building materials, metal components, machinery, industrial products, agricultural goods, and other specialty items. Our team focuses on efficiency and on time delivery to serve industries that rely on fast, accurate, and reliable freight movement.

We are driven by strong communication, hands on service, and a straightforward approach rooted in integrity. Although we are a small company, we draw from seven combined years of experience to provide dependable transport solutions that keep customers confident in every load we move. Our past work includes hauling a broad variety of legal flatbed freight, including standard palletized goods as well as unique or non traditional loads that require securement and careful handling, across Michigan, Ohio, Illinois, and surrounding regions. We do not haul hazmat or oversize freight.

Core Competencies
