Skyecast Technologies is a full-service technology solutions provider focused on commercial and multi-site environments. The company designs, installs, and manages reliable infrastructure systems that keep businesses connected, secure, and operating efficiently. Skyecast delivers end-to-end technology solutions with an emphasis on performance, scalability, and long-term reliability.

The company provides structured networking and commercial Wi-Fi deployments, enterprise security camera systems built on UniFi Protect, managed IT services, business phone systems, and TV solutions through Dish Network. Skyecast also offers cellular backup internet and failover solutions to maintain continuity during outages. These services are engineered to support demanding operational environments where uptime and ease of management are critical.

Skyecast Technologies primarily serves commercial facilities such as senior living communities, hotels, and multi-unit properties, actively managing technology across more than 30 locations. The team has extensive experience supporting two to four story buildings with 60 or more units per site. With a hands-on approach and long-term support model, Skyecast acts as a trusted technology partner from initial planning through ongoing monitoring and expansion.

## Core Competencies

- Commercial network design
- Managed IT services
- Enterprise Wi-Fi systems
- UniFi network infrastructure
- Security camera deployments
- Private Cable Operator
- Structured cabling systems
- Firewall and VPN setup
- Network monitoring
- Cellular internet failover
- Multi-site technology management
- Satellite TV services

## Differentiators

- One-vendor technology stack
- Commercial property expertise
- Clean installation standards
- Long-term support model
- Standardized scalable systems
- UniFi-based platforms
- Fast response times
- Detailed pre-install planning
- Ownership-driven mindset
- 30+ active facilities supported
